China Gollapalem, Krishna District, Andhra Pradesh – 521324

PROFESSIONAL SUMMARY

Motivated and hardworking MCA student with knowledge of C, Java, Python, Machine Learning, Deep Learning, and Software Development. Hands-on experience in Python Full Stack Development and web and mobile application development. Seeking an entry-level opportunity to apply technical skills, learn new technologies, and contribute to organizational growth.

EDUCATION

Master of Computer Applications (MCA) Swarnandhra College of Engineering and Technology, Seetharampuram	2024 – 2026 8.4 CGPA
Bachelor of Science (B.Sc.) – MPCS Sri Aditya Degree College, Bhimavaram	2021 – 2024 7.4 CGPA
Intermediate – MPC Sri Sai Aditya Junior College, Bhimavaram	2019 – 2021 7.6 CGPA
Secondary School Certificate (SSC) Z.P.H. School, Rallarevu	2018 – 2019 8.5 CGPA

TECHNICAL SKILLS

- **Programming Languages:** C, Java, Python
- **Machine Learning, Deep Learning & Data Science:** Machine Learning, Deep Learning, Data Science
- **Mobile Development:** React Native (Expo), EAS Build
- **Database:** MySQL, DBMS, MongoDB
- **Security:** Network Security, Cyber Security
- **Frameworks:** Django, Flask

INTERNSHIP

Python Full Stack Internship · Global One Services

- Completed hands-on training across **5 core technologies: Python, OOP, SQL, HTML, and CSS**, applying programming concepts through practical implementation exercises.
- Practiced **5+ core Python areas**, including data types, control statements, functions, collections, and Object-Oriented Programming through structured coding exercises.
- Developed a functional **Python Snake Game** implementing **4 key features:** game logic, movement controls, food generation, scoring, and collision handling.
- Worked with **3 SQL concepts**—commands, joins, and triggers—and applied HTML/CSS web-development concepts through source-code development, flowcharts, and project testing.

PROJECTS

Plant Root Disease Prediction using Machine Learning and Deep Learning

Mini Project

- Created a web-based solution for identifying plant root diseases from input data using Machine Learning and Deep Learning techniques.
- Designed the user interface with HTML, CSS, and JavaScript, while implementing the prediction functionality with Python and Flask.
- Integrated image processing and classification methods to produce disease identification results.

DNA Classification using Machine Learning and Deep Learning

Main Project

- Implemented a DNA classification solution with both web and mobile interfaces for analyzing and classifying DNA data.
- Developed the web component using Python, Django, HTML, CSS, and JavaScript, with React Native (Expo) used for the mobile interface.
- Configured mobile builds through EAS Build and hosted the application on Railway Cloud.

CERTIFICATIONS

- **Introduction to Cybersecurity** – Cisco Networking Academy Program
- **English Language and Communication Skills** – MePro Pearson

SOFT SKILLS

- Problem Solving
- Team Leadership
- Teamwork
- Quick Learner
- Communication Skills
- Time Management
